

# Trimble Paving Solutions

## Runway 3D Milling and Paving

 **50%** fuel savings over traditional paving methods.

 **13%** faster project completion compared to paving without technology.

 Over **\$17,000** in material savings versus initial estimate. Approximately 1% of the total job tonnage.

**Zero** rework and zero grinds on a 2.4 million square foot paving surface. 

**Zero** waste and zero overruns. 

ROI figures illustrate results from an asphalt paving contractor using Trimble® Paving Solutions on a major runway reconstruction project in the United States.
