

YOUR STEP-BY-STEP GUIDE TO GETTING THE MOST FROM TRIMBLE TECHNOLOGY.

MARCH 2025

TRIMBLE EARTHWORKS FAQ: Adding a Design

Welcome to **SITECH SmartGuide & Go** – your go-to resource for quick, clear, and stepby-step guidance on using Trimble technology with confidence. This series is designed to help you navigate common setup tasks, optimise performance, and get the most out of your equipment—without needing to call support.

In this guide, we'll walk you through **Adding a Design - Trimble Earthworks**, with easy-to-follow instructions to ensure you're up and running in no time.

1. Select Job Set up tile.

2. Job set up page will open. Insert USB into screen.

Trimble® Earthworks			.al	- 0	*↔ •
JOB SETUP					i
Positioning Source Dual GNSS		Project	None Selected	\sim	E
_ <			No Project available		
		Mode	Depth and Slope	~	
🗙 Cancel	P Refresh	⊀C≁ File Ti	ransfer	🗸 Apply	

3. Transfer type: Import Files TO Machine - From USB.

Select: NEXT

4. Android page will open over the app. Select the menu icon.

5. The page defaults to the TD540, make sure to select the USB.

6. Now the USB is highlighted.

6. Select USE THIS FOLDER.
