Trimble Works Subscription

Connected Construction with Technology Assurance for a Predictable Monthly Price

Trimble® Works Subscription, are subscription bundles, including both Trimble Earthworks Software or Trimble Siteworks Software that provides the software solutions at a contracted, fixed monthly price from a choice of 12 to 72 month terms. Technical assurance for both hardware and software is included, removing the headache of managing, maintaining and modernizing large fleets and all of your survey equipment.

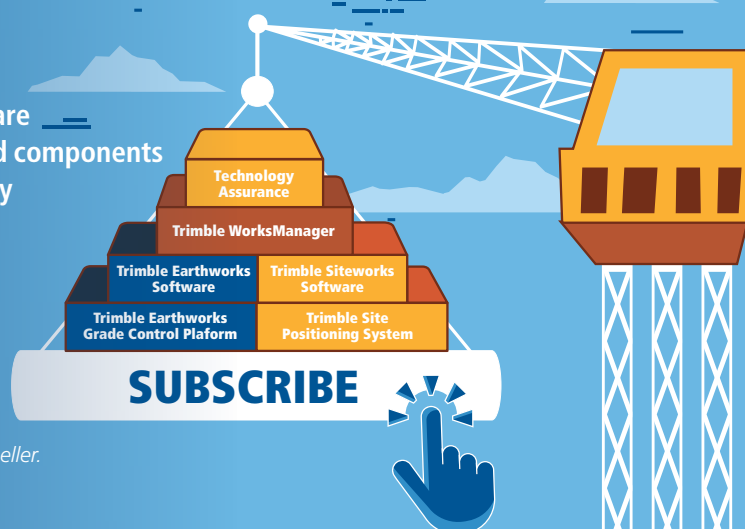

The fixed monthly price includes:

- All software updates
- Premium packages with Trimble WorksManager Software
- Hardware* component upgrades included on serialized components
- Trimble Protection Plan with Extended Factory Warranty
- Accidental damage coverage of components**

Local technical support, training, and customer service packages are available as optional additions to the subscription.

* Hardware upgrade includes once per device per term.

** Not available in all locations. Please confirm availability with your local reseller.
